Enhance your Employee Benefits Program with ISU Commuter!

ISU Commuter not only increases the value to your employees benefits portfolio but saves you money. ISU Commuter provides employees with the ability to save up to 40% of their commuting costs while employers save on their payroll taxes by taking advantage of IRS Code Section 132(f) Qualified Transportation Benefits.

Through a company-sponsored plan, this law allows employees to use tax-free dollars (subject to monthly limits) to pay for qualified public transportation, vanpooling, and parking expenses related to their commute to work.

Employers can even offer this program at no additional cost to them. With an offset in reduced payroll taxes, employers can provide a benefit that is both valuable and tangible, without having to pay a lot of money.

A rare occurrence in the world of benefits, this makes a valuable employee benefit even more appealing to employers. ISU Commuter is an attractive benefit for both employees and employers and is a great compliment to our other ISU Insurance Services product and services for employers and employees.

With ISU Commuter, your organization can:

- Enhance your employee benefits portfolio
- No Paper. We're a Green Commuter Benefit!
- Save money on payroll taxes
- Save your Employees up to 40% on their commuting costs
- Offer a commuter benefits program that is 100% fully compliant with IRS Section 132(f) regulations
